# 1953 - 1954 GLADIOLUS OFFERINGS

We take pleasure in presenting our 1953-1954 catalog for you approval and consideration in which is listed nearly 100 varieties of Gladiolus covering a wide range of color

and sizes. Priced in various quantities to best fit your needs.

Loveland Glad Gardens, a division of Kroh Nurseries, has supplied bulbs of choice varieties to many satisfied customers in this area and throughout the country. Varieties listed have been carefully selected for their beauty, vigor, and dependable performance. This listing does not contain all the good glads of today but it does contain the proven superior older varieties as well as a few of the best recent introductions.

Glads are quite easily grown and are not exacting as to soil. For best results we suggest they be planted in rows 18 to 24 inches apart with about 3 large bulbs or 5 to 6 medium bulbs per lineal foot. Of most importance is to get good varieties and young vigorous bulbs.
